Frontend Developer | React.js | TypeScript | Redux Toolkit | SaaS & AI Products

Professional Summary

Frontend Developer with **4+ years of experience** developing scalable **web applications, SaaS platforms, and AI-powered products** using **React.js, TypeScript, Redux Toolkit, JavaScript, and REST APIs**. Skilled in building reusable **component-based architectures**, responsive **user interfaces**, and **high-performance web applications**. Improved application performance by **30%** through **frontend optimization** and reusable components. Experienced in **API integration, CI/CD workflows, OpenAI API integrations**, mentoring junior developers, and collaborating with **cross-functional teams** to deliver **user-centric solutions**.

Technical Skills

- **Frontend:** React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery
- **State Management:** Redux Toolkit, Redux, Context API, React Hooks
- **Internationalization (i18n):** react-i18next
- **Testing:** React Testing Library, Jest, Vitest, jsdom
- **UI/UX & Design:** Responsive Web Design, Figma, Adobe XD
- **Tools & Build:** Git, GitHub, NPM, Webpack, VS Code
- **DevOps, CI/CD & Deployment:** GitHub Actions, CI/CD, cPanel, FileZilla
- **API & Integration:** REST APIs, GraphQL, Axios, OpenAI APIs
- **AI Integration & Development Tools:** AI-driven SaaS Solutions, Cursor AI, ChatGPT, Claude AI
- **Performance Optimization:** Code Splitting, Lazy Loading, Memoization
- **Project Management Tools:** Jira, Trello, Agile/Scrum

Work History

Frontend Developer | HopeQure Wellness Solutions Pvt Ltd

May 2024 – Present

- Managed **frontend development and website implementation**, improving platform usability and user experience.
- Built scalable **B2B and B2C dashboard modules** using **React.js, TypeScript, Redux Toolkit, and Tailwind CSS** with reusable component-based architecture.
- Developed and maintained **platform interfaces**, integrating **REST APIs** with .NET backend systems.
- Implemented **AI-powered features** including face scan analysis and real-time health report generation.
- Designed and developed the **Experts Dashboard** with appointments, video consultations, chat, and reports.
- Owned **end-to-end frontend development** across multiple web applications, including UI implementation, API integration, deployment, and **CI/CD workflows**.
- Improved **website performance by 30%** and increased **organic traffic by 22%** through optimization strategies.
- Mentored **junior developers and interns**, improving code quality and team productivity.

Web Designer | v2Web Hosting Pvt Ltd

Nov 2023 – Apr 2024

- Developed **20+ responsive websites and landing pages** for international clients across e-commerce, government, and business domains.
- Built client-facing frontend applications using **React.js, JavaScript, Tailwind CSS, HTML5, and CSS3**, delivering responsive and interactive user experiences.
- Converted **Adobe XD and Photoshop designs** into pixel-perfect, responsive web interfaces with interactive animations and UI enhancements.
- Optimized frontend performance across desktop and mobile devices, reducing load times and increasing user engagement by **25%**.
- Resolved production UI issues and improved website stability, reducing downtime by **30%**.

- Developed **20+ responsive websites** by converting PSD designs into production-ready web interfaces.
- Built frontend interfaces using **HTML5, CSS3, JavaScript, Bootstrap, and jQuery**, ensuring responsive and cross-browser compatible user experiences.
- Developed and maintained **WordPress websites** following SEO best practices and performance optimization standards.
- Improved overall **UI usability by 15%** through user-focused design and frontend enhancements.
- Ensured **cross-browser compatibility** across major browsers and devices, delivering consistent user experiences.

Projects

HopeQure – AI-powered B2B & B2C Healthcare SaaS Platform

- Led the complete **website redesign and frontend development** of an AI-powered healthcare SaaS platform.
- Built scalable **B2B and B2C dashboard modules** using React.js, TypeScript, Redux Toolkit, and Tailwind CSS.
- Developed the **Experts Dashboard** with appointment management, video consultations, chat, and reporting features.
- Implemented **AI-powered face scan capabilities** and integrated REST APIs to support healthcare workflows.

Homelyfy – E-commerce Web Application

- Developed a responsive e-commerce web application using **React.js, Tailwind CSS, React Router, and Context API**.
- Implemented **product listing, product details, category-based filtering, search, sorting, and pagination** functionalities.
- Built **Cart and Wishlist** modules using **Context API** for efficient global state management.
- Added **multi-language support** using **react-i18next** and developed reusable UI components for scalable frontend development.
- Designed and implemented **checkout flow, policy pages, and responsive layouts** optimized for mobile, tablet, and desktop devices.
- Configured **GitHub-based CI/CD workflow** with automated deployments and managed version control using **Git and GitHub**.
- Implemented a **service-layer architecture** for product data management, improving code organization and scalability.

RKIMT – College Website

- Converted **Adobe XD designs** into responsive web interfaces using HTML, CSS, Bootstrap, and JavaScript.
- Built the complete frontend from scratch with structured and maintainable code.
- Developed interactive UI components and ensured cross-browser compatibility across devices.
- Delivered responsive user experiences for desktop, tablet, and mobile platforms.

Education

Bachelor of Technology – Computer Science & Engineering

Dr. A.P.J Abdul Kalam Technical University

2016 – 2020

Soft Skills

Problem Solving • Communication • Collaboration • Adaptability
